WHERE DO YOU GET YOUR

# Job Printing?

DO you know that it is money in your pocket to get none but the best when ordering your JOB PRINTING? Such is the testimony of all shrewd business men. Shoddy Job Printing will drive away instead of attracting trade.

Recognizing this fact, the Journal's Job Office has been fitted in every department to "turn out" none but first-class work.

If you want Letter Heads, Bill Heads, Statements, Envelopes, or any kind of Special Ruling and Book Making you will do well to visit this office before getting your work done.

The Wedding, Ball, and Fancy Printing of all kinds turned out of this office, is equal to the best. For this line of work we can show you the finest line of samples in the city. Come and see.

If you want Pamphlet Printing done, come to this office. We have the latest improved machinery for this work.

And just remember at all times one distinct fact: There is nothing done with type and printers ink but what you can get at this office.

Very truly,

FRENCH & WILSON, Prop's.

P. S.—Our BOOKBINDING and BOOK REPAIRING department are complete, and we can give you any style of work in this line you may want.

TO THE PUBLIC+ + + +

## The Morning Journal

DO you want a Daily paper that prints the latest news, fresh from the wires, and gives all the local news in condensed and readable form, with a fair but fearless editorial comment on the live topics of the day? If so, subscribe for the LAFAYETTE MORNING JOURNAL.

It will cost you but 15 cents per week, delivered by carrier at your door, bright and early every morning; or at 50 cents per month by mail outside of the city. Try it.

The WEEKLY JOURNAL is the neatest and best 8-page department paper in the State, and costs by mail only \$1.00 per year.

### + + ADVERTISING. + +

Do you want to advertise in a paper that will reach more readers than any other paper in north-western Indiana, and insure you prompt and profitable returns? If so, place your advertisement in the Daily and Weekly Journal. Established for more than sixty years, having a larger circulation than any other paper published at LaFayette, and numbering its readers without regard to politics or religion; you can not fail to find its columns valuable as an advertising medium.

Very truly,

FRENCH & WILSON, Prop's.

THE HISTORY OF THE  
CITY OF BOSTON

The history of the city of Boston is a subject of great interest and importance. It is a city that has played a significant role in the development of the United States. From its early days as a small fishing village to its current status as a major metropolitan area, Boston has a rich and varied history.

The city was founded in 1630 by a group of Puritan settlers. They came to the area in search of a place where they could practice their religion freely and build a community based on their religious principles. The city was named after the English city of Boston, which was the largest city in England at the time.

Over the years, Boston has grown and changed. It has become a center of education, industry, and culture. It is home to many of the most famous universities in the world, including Harvard University and MIT. It is also home to many of the most important industries in the United States, including finance, technology, and manufacturing.

Boston has a long and proud history. It has been a city of firsts, from the first printing press in the Americas to the first subway system in the world. It has been a city of courage and sacrifice, from the Boston Tea Party to the Battle of Bunker Hill. It has been a city of innovation and progress, from the invention of the printing press to the development of the modern city.

The history of Boston is a story of a city that has always been at the forefront of change and progress. It is a city that has shaped the course of American history and continues to do so today.
